

MFC®
PRELAM CHIPBOARD

DECORATIVE PANELS 2026

Engineered for The Next Generation

Superior load-bearing capacity for dry and humid conditions with high-dimensional stability and stiffness.

A chipboard with special resistance properties to occasional humidity, with minimal expansion and swelling.

The board has good mechanical properties and a particularly adapted core to receive screws and fixation

systems. In addition to technical performance, these panels are sustainable and environment-friendly.

Applications

Kitchen and bathroom furniture

Load-bearing use in humid conditions

Indoor areas in demanding load applications

Use on structural flooring, walls and roofs

Structural or access flooring
